Re: DOGM Letter of April 7, 1989
Topsoil Deficiency

Dear Mr. Braxton:

The referenced letter sets a deadline of June 30, 1989 to address certain outlined items. Western States Minerals Corporation respectfully requests a two-month extension of that deadline to August 31, 1989.

As you know, there is currently a disagreement between Western States Minerals Corporation and Jumbo Mining Company on reclamation responsibility which needs to be resolved. Also, planning and implementation of the points in the letter would require cooperation and agreement between WSMC and Jumbo which would be better accomplished at some point in the future when our differences are resolved. We hope to have this accomplished, or at least to a point where we can submit a more meaningful response, within the two-month period.

Your granting this request would be greatly appreciated.

Sincerely,

Western States Mineral Corporation

Allan R. Cerny
